Message from the President

We are delighted to invite you to the 23rd Congress of the World Association of Social Psychiatry at Bucharest, October 25-28, 2019. This is a special occasion for all of us including our member societies, social psychiatrists and mental health professionals all over the world to meet together and engage in scientific deliberations.

The theme of the Congress, "Social determinants of mental health and access to care" is contemporary and relevant. It reflects our concern for mental health in this age of globalization, commercialization and the merging of boundaries between nations.

Prof. Roy Abraham Kallivayalil

President, World Association of Social Psychiatry

Message from LOC Chair

We are very pleased that this prestigious event and all its formidable speakers have chosen Romania as a destination for this year congress. Personally, I have prepared a very up to date topic materialized in a Master Class on Preventing Youth Suicide in Europe to which I invited everyone to attend. We are expecting a large participation from the Romanian strong community and we welcome each and every of you to get a taste of what our lovely country has to offer. We have prepared an exciting social program for you and a variety of post congress trips to experience.

Prof. Doina Cozman

Co-Chair Organizing Committee, WASP Congress 2019

About WASP

World Association of Social Psychiatry (WASP)

Prof Roy Abraham Kallivayalil, President

World Association of Social Psychiatry (WASP) was founded in 1964 by Joshua Bierer and other leading social psychiatrists of that time. The purpose of the WASP is as follows, and as is defined in its Statutes:

1. To study the nature of man and his cultures and the prevention and treatment of his vicissitudes and behavioral disorders.
2. To promote national and international collaboration among professionals and societies in fields related to Social Psychiatry.
3. To make the knowledge and practice of Social Psychiatry available to other sciences and to the public, and
4. To advance the whole health and wellbeing of humankind.

Initially the World Congresses were named International Congress of Social Psychiatry. From the 6th Congress, it was named World Congress of Social Psychiatry. The 23rd Congress is being held in Bucharest, Romania Oct 25-28, 2019. The 24th Congress will be held in 2022. WASP is comprised of Member Societies from all parts and regions of the world.

The present Executive Committee (2016-19)

Information about Bucharest

Bucharest, the capital of Romania, is the largest city and the main political, administrative, economic, financial, banking, educational, scientific and cultural center of the country. Bucharest, a capital which was certified more than 500 years ago, is nowadays animated by a population of almost two million inhabitants.

Time has preserved the scent of the past and has embedded it in never-ending stories. The Lipscani area is the oldest remaining part of Bucharest and is known as the “historical center”. This district was Bucharest’s most important commercial zone from the middle ages to late 20th century. Also, the prince had his court here – the ruins can be seen today on the French Street. While probably famed more for its history and its nightlife, the Old Town area of Bucharest is in fact home to some superb places to eat: both highend, fine-dining establishments as well as kebabs and take-aways.

Today, the city is a mix of old and new, traditional and modern, in a neoclassical style that is showing originality and charm. In 2012, Bucharest ranked second among Europe’s ‘coolest’ cities, according to a top published by the online magazine slate.fr, taking into account several criteria, such as the price of beer, the number of students in the city and the number of neighborhoods where tourists and residents can have fun.

Money: Romania’s currency is LEU (RON); approximately 1 EUR = 4.8 RON,
1 USD = 4.3 RON

We recommend you pay attention when using taxis, as there are 2 types of taxi drivers in Bucharest: those who are individually licensed and practice high prices, and those working for taxi companies, with prices between 1.39 lei / km – 3.9 lei/km.
